

Acupuncture for Long COVID

Studies showed over 50% of COVID-19 survivors were still experiencing one or more long COVID symptoms six months after recovery.

Symptoms include:

- 1) Fatigue
- 2) Headache
- 3) Cloudy Mind
- 4) Dizziness
- 5) Body Aches
- 6) Increase Heart Rate
- 7) Anxiety
- 8) Shortness of Breath

Traditional Chinese medicine with acupuncture and herbal supplements are very well positioned to help patients with post COVID symptoms. We assess each patient, identify the organs or meridians being affected as the root of the problem. We then tailor an individualized treatment to help bring the body back to good health.

Are you or your love one suffered from Long COVID symptoms?
